BUT I HAVE NOTHING TO TALK ABOUT!

Tina Ulbrich – ROSEN Technology and Research GmbH – @_Yulivee_

What do you do?

What do you want to learn more about?

Tell us what excites you!

Talk about your ideas!

- What are you working on?
- Which libraries are you using/writing?
- Which open source projects are you using/working on?
- Which questions, problems or challenges have you or someone in your team encountered?
- Consider talking about the basics.
- Don't assume everyone knows what you know.
- Talk about things you are excited about.
- Take your time to find your style.
- Talk about your ideas and get feedback.
- Relax and have fun!

YOU CAN DO IT!
